CamScanner

terrorists kill civilians in large numbers, commit other acts of violence and destroy buildings. So I want to join Pakistan Army / Air Force to defend my country and serve my nation.

(7) My Country

Pakistan is my beloved country. It came into existence on 14th August 1947. Quaid-i-Azam Muhammad Ali Jinah was its first Governor General. Pakistan is a beautiful country. It has snow-capped mountains and silvery water falls of the north, beautiful shores of Arabian Sea, rocky regions of Baluchistan and fertile plains of Punjab.

The Indus is the biggest river of Pakistan. It starts from Himalaya and ends in Arabian Sea near Thatta. Islamabad is the capital of Pakistan which is a modern and beautiful city. There are five provinces, Punjab, Sind, Khyber Pukhtoonkhawa, Baluchistan and Gilgit-Baltistan. Seven Federally Administrated Tribal Areas (FATA) are also a part of Pakistan. Every province has its own culture and customs which are very charming and simple. The population of Pakistan is about 200 millions. Pakistan is an agricultural country. Wheat, cotton, sugarcane, rice are main crops.

A large number of factories are also established in Pakistan. Its cotton industry is famous throughout world. Pakistan is an atomic power too. I am proud of my country.

(8) Television

Television is a wonderful invention of this age. It was invented by Baird. The first TV station in Pakistan was established at Lahore in 1964.

Now there are a large number of TV channels in Pakistan. We see different kinds of programs on our TV sets. Some of them are for entertainment such as dramas, films, music and dance shows etc. Some programs are informative such as news, talk shows, documentary film and science magazine. Educational programs are also shown on the different TV channels. Many programs are telecast for the children. The children watch these programs with great interest and achieve vast knowledge. Sports programs from the whole world are directly shown on the sports channels. Television is very popular these days. It has a great influence on the people all over the world.

(9) Computer

Computer is the latest invention of the modern age. It is an electrical device. It gets instructions from its user. First computer was invented in 1942. It works like a human brain. Its memory is far more than a human brain.

Computer is the fastest machine of the modern age. It can perform thousands of calculations and information in a few seconds.

Computer technology is used in every walk of life throughout the world. Communication is possible within no time anywhere in the world with the help of computer. Information technology is possible only due to computer. Computer has made the world a global village. It is playing an important role in the development of modern society.

(10) My Daily Programme

I wake up early in the morning and take a bath. After offering my morning prayers, I go out for a walk. I often go the park. There I take light exercise. Then I move back to home. I take my breakfast, change my clothes and leave for school.

Our school starts at 8:30 a.m. I attend the assembly and then go to my classroom. I am taught different subjects by different teachers. I return home from school at about 2:30 p.m. I take my lunch and offer the mid-day prayer. Then I lay down for a nap.

At about 5 p.m. I go to the school playground to play cricket. I come back home before sun set. After offering the prayers, I get busy with my books. I also complete my homework. Then I offer the Isha prayers, take my supper and go to bed.

(11) My Hobby

A hobby is something we do in our spare time for the sake of pleasure. There are different kinds of hobbies such as stamp collecting, gardening, music,

a dangerous global warning situation. Air pollution, noise pollution and water pollution have destroyed the natural beauty of the earth. The air we breathe in is polluted and therefore causing many vital diseases. The water that we drink is also polluted. The noise of traffic horns and factories causes noise pollution which makes us short tempered. The modern inventions are very useful but at the same time harming us.

We have to take solid steps to eradicate this pollution. We should not burn the harmful gases and fuel. We should not cut trees and should not throw industrial wastes and garbage in rivers and streams.

(16) Girl Guides

Girl Guides is a British organization of girls. It was founded by Baden Powell and his sister Lady Agnes in 1910. The main objective of this movement is to make teenage girls conscious of their responsibilities. A member, a girl guide, is given a variety of programmes that shape her character. She learns, in association with other girl guides, how to keep herself clean and healthy. She is instructed how to build her moral and social character. She learns the basic facts about courtesy and etiquette. Furthermore, a girl guide is taught how to develop home making abilities. She learns household skills like cooking, knitting, stitching, planning and maintenance.

(17) A Road Accident

I witnessed an accident on the Lahore-Narowal road. It was a very sad spectacle. The road on the spot was littered with broken glass and bits of iron bars. The luggage of the passengers of the bus was in a muddy sideway nullah. There were little pools of blood with bricks around them. A head-on collision between a bus and a truck had taken place. Two persons were killed on the spot and five other sustained serious injuries. The bus was laying on one side with its heavy wheels raised high in the air. The police arrived, took necessary measures and recorded statements.

(18) Sports and Games

Sports and games play an important role in the development of human personality. They are no less important than food and fresh water. The developed countries like England, Germany, France and the USA have made games an essential part of education at the school level. It is interesting to note that there are many nurseries and training centers for games in these countries. They admit boys and girls for necessary training to become future athletes, gymnasts and sportsmen.

No doubt, games and sports are becoming popular in Pakistani schools as well. The facilities, of course, are not adequate at present. This situation is expected to improve in the near future.

The Pakistani schoolboys and schoolgirls know fully well the meaning of the proverb: "All work and no play, makes Jack a dull boy." They know that their growing bodies need regular physical exercise to keep themselves healthy and fit.

General sports include hunting, fishing (angling), riding, cycling, mountaineering (mountain climbing), etc. Mountaineering is becoming a favourite sport of Pakistani schoolboys in summer time among the mountains of Murree, Nathiagalli, Swat, Chitral, Kaghan and the Karakoram Highway.

A number of school clubs and societies hold athletic contests. These contests include walking, jogging, jumping, swimming, rowing, wrestling, boxing, hammer / disc-throwing, lightweight lifting and gymnastics. An athlete is trained to be perfectly fit to engage in such contests.

Moreover, football, hockey, cricket, tennis, badminton and table tennis are among the favourite organized games in schools. All such sports and games certainly benefit both mind and body. They create cheerfulness, discipline, fellowship, confidence and physical fitness.

(19) A Cricket Match

A cricket match between the two leading teams is an event of great charm. It was quite interesting to watch a match between two teams in the President's
